PRODUCT DESCRIPTION

Crafted from high-quality plastic materials, these wall plugs combine lightweight design with exceptional durability, ensuring reliable support for various construction applications.

KEY FEATURES

- **Premium Plastic Composition** – Lightweight yet highly durable.
- **Strong & Secure Stability** – Provides firm anchoring on different surfaces.
- **Easy Installation** – Practical design allows quick and safe setup.
- **Weather-Resistant** – Withstands moisture and environmental changes for long-lasting performance.

APPLICATIONS

Ideal for construction projects, electrical installations, and interior and exterior fittings, making them a preferred choice for contractors and project owners.

AVAILABLE SIZES

Available in thicknesses: 6 mm, 8 mm, 10 mm, and 12 mm
